Known for calm operational leadership, reliable coordination, supplier communication, reporting discipline, teamwork and a practical approach to keeping service, stock and cargo movement aligned.

CORE SKILLS

PROFESSIONAL EXPERIENCE

National Parts Manager (Temporary Contract) | MCM | April 2026 - Present

Currently manages national parts operations across stock control, goods counting, imparts, transports coordination and cargo movement.

Coordinates cargo flow, shore supply, warranty-related supply and operational communication between teams and stakeholders.

Supports order pricing, demand forecasting and supply availability planning to keep operations aligned with demand and cost expectations.

Works in a team-based temporary role, supporting coordination, follow-up and issue resolution across logistics and supply activities.

CLO Manager | Schneider Electric | 2008 - 2022

Managed customer relationships, logistics support, transport coordination, cost control, purchasing and vendor communication.

Supported contract compliance, supplier improvement initiatives, reporting, customer service quality and operational follow-up.

Contributed to a strong service culture through positive relationships, accountability and process-focused support.

Senior Demand Planner / Warehouse Operations RMA

Supported demand planning, order review, warehouse operations, logistics coordination, reporting and process improvements.

Worked across service experience, supply chain communication and operational administration to support efficient flow of work.
